

At STORYHOUSE it is very important for us to reduce our carbon footprint, waste and be as green as possible. Below are the actions we are taking throughout the event:

**REUSABLES** – Catering will provide attendees with cups and glasses for drinks and beverages during the event. In the interest of reducing waste, disposable cups will not be available in the venue.

**WASTE DISPOSAL** - Please take a moment to familiarise yourself with the various disposal bins, so that your waste goes to the right place.

**PAPERLESS** - We will be printing a limited number of flyers, posters and other agenda documents. The programme is available digitally online for attendees to access via QR codes.

**TRAVELLING TO EVENT/ TRANSPORT** – Event staff will help with transportation from speaker accommodation to the venue. We have ensured that all key events are within walking distance in Dublin city centre. Where possible we have endeavoured to coordinate the most sustainable form of air travel so as to minimise our carbon footprint.

#### **FURTHER INFO**

If you have any ideas or suggestions on how your department can make things more sustainable then please get in touch with Lara Hickey and Charlene Lydon at [storyhousescripted@gmail.com](mailto:storyhousescripted@gmail.com)

Thank you in advance for your efforts! Storyhouse is a Green Production!
